

It is important that every individual has a **DENTAL HOME**.

A **DENTAL HOME** is a place where children and adults can receive consistent, comprehensive, compassionate dental care.

- You can protect your child's smile by scheduling dental visits every 6 months.
- Childhood decay is preventable
- It is important for children to start seeing the dentist as soon as the first baby tooth comes in.
- Don't rush when you brush! 2 minutes 2 times each day
- Floss every day!
- Early detection and treatment of problems with your gums, teeth and mouth can help ensure a lifetime of good oral health!
- Oral disease has been linked to many systemic diseases.
